

SAMUEL EZEKIEL

Osun State, Nigeria | +2348087357158 | samkiel.dev@gmail.com | LinkedIn | GitHub | Portfolio

OBJECTIVE

Software engineer and full-stack developer with a strong foundation in web and mobile development. Experienced in building user-focused solutions, mentoring aspiring developers, and leading tech community projects. Committed to digital innovation and continuous learning.

EDUCATION

Obafemi Awolowo University (OAU) — B.Sc. Software Engineering
2024 – Present

Polytechnic Academy Nasarawa — High School Diploma
2021 – 2023

SKILLS

Languages/Frameworks: JavaScript, React, Next.js, PHP, Python, Java, Kotlin, HTML, CSS

Databases: MySQL

Mobile: Android (Kotlin, Jetpack Compose)

Tools: Git, GitHub, VS Code, Android Studio, Font Awesome

Other: Debugging, UI design, API integration, Authentication systems

Soft Skills: Team collaboration, leadership, mentoring, problem-solving, critical thinking

EXPERIENCE

Founder & Lead Developer — D3V++ Tech Community (2024 – Present)

- Founded and lead a developer community focused on collaborative projects.
- Designed and developed a chat social media platform with secure login and real-time interaction.
- Built and maintained the D3V++ website showcasing projects and community members.
- Organized coding sessions, mentored junior developers, and fostered team collaboration.

Programming Instructor & Mentor (2024 – Present)

- Conducted community-based computer training programs at CAC Model School.
- Delivered courses on computer literacy, programming basics, and applied projects.
- Trained students to build real-world projects and gain hands-on coding experience.

PROJECTS

- Chat Social Media Platform — Secure PHP/MySQL chat system with authentication and profiles.
- D3V++ Website — Tech hub for projects, member profiles, and community updates.
- PGPoetry (Priceless Gift Poetry) — Multi-author poetry blog with summaries and detail pages.
- Status Saver App — Android app (Kotlin + Jetpack Compose) for WhatsApp status downloads.
- Portfolio Website — Responsive showcase of personal projects, skills, and contact links.
- Calculator App — JavaScript-based calculator built during early training phase.

ACHIEVEMENTS & COMMUNITY

- Organized **D3V++ hackathon projects** and led a team of developers.
- Conducted training sessions impacting **dozens of learners** in computer literacy and coding.
- Active in tech conferences, developer meetups, and online coding communities.

HOBBIES & INTERESTS

- Exploring new programming technologies
- Building mobile apps and user interfaces
- Attending tech events and hackathons
- Mentoring upcoming developers
- Playing chess
